

MOBIP 2010

Partnership and Investment for Mobile Services

On the **10 & 11 of June**, Valencia will become a meeting point for SMEs, professional experts, intermediaries, corporate and venture capital investors to support knowledge-sharing on strategic information, market opportunities and new business trends for the Value-Added Services in the Mobile industry.

The aim of the Partnership and Investment Forum is to foster the competitiveness of high-growth ventures in the mobile services sector and to strengthen their opportunities for market access both within Europe and in wider international markets.

During these intensive two-day event, the focus will be to facilitate communication between investors and high-growth potential SME's, exploit the prospective of business-to-business cooperation, and to improve access to large mobile corporations, venture capitalists and industry players as sources of partnering and investment.

Who should attend?
